### About Me

**Date Of birth:** 13/04/2004

**Nationality:** Ghanaian

Enthusiastic Computer Science graduate with hands-on experience in mobile and web application development. Skilled in Flutter, UI/UX design, and modern software engineering tools. Passionate about using technology to solve real-world problems. Actively involved in developer communities such as Crowdsourced Learning, Flutter Flow, and Thrive Africa, where I also mentor aspiring software engineers.

---

### WORK EXPERIENCE

#### FirstBank Ghana Ltd. - Mobile App Developer (National Service)

*May 2025 – October 2025*

- Designed and developed MVPs for two major internal applications using Flutter and Next.js.
- Built a carpooling mobile app prototype to facilitate staff ride-sharing.
- Developed a web-based complaint management system enabling customers to track complaint resolution in real time.

#### FirstBank Ghana Ltd. - Customer Service Officer (National Service)

*November 2024 – May 2025*

- Strengthened communication, problem-solving, and customer relationship management skills in a fast-paced banking environment.

#### Leti Arts - 3D Animator (Internship)

*September 2023 – Oct 2023*

- Created character animations, including walk cycles, lip-sync, and gesture movements using Blender's rigging and animation tools.
- Utilized Blender's Grease Pencil and keyframing techniques to produce 2D/3D hybrid animations.

#### Auto Chill Engineering LTD - Diagnostic Technicians (Internship)

*April 2023 – May 2023*

- Diagnosed and repaired vehicles with sensor malfunctions using OBD-II scanners.
  - Collaborated with senior technicians to troubleshoot complex automotive issues.
-

## EDUCATION

### **HND In Computer Science, Accra Technical University**
